

The power to translate is now inside **ORACLE® WebCenter** Content | Portal | Site Studio | Sites

Now it's easy to translate your web and document content directly from Oracle WebCenter Content | Portal | Site Studio | Sites using the new **Lingotek - Inside for Oracle WebCenter Content | Portal | Site Studio | Sites** integration. Your users will be able to access translated content, nominate content for translation, and even offer to translate content themselves all without leaving your site!

Lingotek - Inside for Oracle WebCenter Content | Portal | Site Studio | Sites integration:

- Machine Translation technology quickly translates documents or any page on your site.
- Lingotek's Workbench allows bilingual users to volunteer to translate content for you easily and quickly. Even non-professional translators can create quality translations using Lingotek's innovative suggestion and automation technologies.
- Users can nominate any page for translation. You'll save money by only translating the content that's most important.
- All these powerful features are integrated directly inside WebCenter Content | Portal | Site Studio | Sites. No separate login. No installation burden. No headaches.

More Information Please Visit
